Growth and SEO: Google Ads, Conversion Tracking, Technical SEO, Microsoft Clarity, Performance Reporting

Delivery: Project Leadership, Requirements Gathering, User Acceptance Testing, Process Mapping, UI and UX Design, Figma, Documentation

PROFESSIONAL EXPERIENCE

Full Stack Developer, Tee Vision Printing

Philadelphia, Pennsylvania, USA (Remote) | April 2026 to Present

- Reduced operating costs by refactoring a fragmented codebase into maintainable structured code and consolidating hosting.
- Designed and delivered three internal systems in house, including an employee portal progressive web app used by 15 staff for role based access, time tracking, availability, and project management.
- Built an operations portal covering expenses, advertising, and SEO, plus customer relationship management and authentication tooling.
- Developed Chrome extensions that consolidate finance data from external platforms into internal reporting.
- Maintain and improve the live company website, delivering user experience, performance, and production fixes.
- Manage Google Ads campaigns, conversion tracking, and funnel diagnostics, pairing campaign data with Microsoft Clarity.

Freelance Full Stack Developer and Project Lead, Self Employed

Philippines (Remote) | 2025 to Present

- Deliver commissioned client systems end to end, covering scoping, development, user acceptance testing, and production deployment, including the DFB Smart Shop ecommerce platform.

Product and Innovation Intern, Tech Executive Labs I.T. Solutions

Batangas, Philippines (Hybrid) | February 2026 to May 2026

- Led information architecture and digital publishing workflows for the Bookside marketplace product.
- Prototyped seller facing analytics views in Figma covering sales funnel and product performance.

Customer Service Representative, Alorica (Amazon Account)

Lipa City, Philippines | June 2025 to August 2025

- Resolved high volume customer issues against service level targets and earned performance commendations.

KEY PROJECTS

DFB Smart Shop, Ecommerce Platform with Visual Search

Client Commission | Project Lead | 2025 to 2026 | dfbsupply.store | Python, Flask, MobileNet, KNN, PostgreSQL

- Led full delivery of catalog, custom size quoting, inventory, administrative order handling, and live rider tracking.
- Implemented image based product search reaching 88.9 percent accuracy and 0.90 macro F1 score on a hold out set.

Automated Sales and Inventory, Pharmacy Point of Sale with Demand Forecasting

University Capstone | Project Lead | 2025 to 2026 | phoebefrontend.vercel.app | Flask, Supabase PostgreSQL, Prophet

- Developed point of sale, inventory, and expiry tracking across more than 690 medicines with role based portals.
- Integrated per product Prophet demand forecasting, waste analytics, and stock recommendations.

EDUCATION

Bachelor of Science in Information Technology, Major in Business Analytics

Batangas State University, Lipa City, Philippines | Graduated 2026

- Dean's List Scholar and Capstone Project Lead. Coursework in systems analysis, data analysis, and database systems.
